4 December 1947

MEMORANDUM FOR THE RECORD:

At about 11:30 a.m., 4 December 1947, I received a call from Speaker of the House Joseph Martin's office, from Mr. James M. Milne, who stated that he was Speaker Martin's Administrative Assistant and that he had been informed by [REDACTED], an employee of this organization stationed at the [REDACTED] that his rating would in all probability be changed from a P-2 to a CAF rating and [REDACTED] had appealed to Speaker Martin to intercede in his behalf to avoid his professional status being changed to a CAF status.

I informed Mr. Milne that we had just recently completed a Civil Service classification survey and, as a result of this survey, many jobs in [REDACTED] had been changed from professional status to CAF status. Without further investigation, I could not inform the Speaker's office exactly how this would affect [REDACTED] but I was under the impression that if his title was changed, which I believed it would be, he would suffer no reduction in salary.

Mr. Milne was very courteous and stated that he just wanted to get a line-up on what the situation was, since [REDACTED] had appealed to the Speaker's office for assistance, and thanked me very much for my courtesy.

Chief, [REDACTED]
